@amc-nu Though I've not deep-dived into this pull request, I might find an unintended modification.

Submodule platform\_automation\_msgs updated from 51ceed to db70b0

platform\_automation\_msgs is pinned to 51ceed at [#1420](#).

Wonderful! Tracking on 2D image become more smooth!

From next time, a pull request is better to have one topic for better commit history. `Fix annoying catkin_make causing to run twice the Cmake generation` seems another topic.
