In ubuntu 22.04 humble, when I load the layout configuration file for plotjuggler

```
#0 Source "../string/./sysdeps/x86_64/multiarch/strlen-avx2.S", line 74,
in __strlen_avx2 [0x7faf3939d97d]
Segmentation fault (カーネルによってシグナルが られました [(nil)])
[ros2run]: Segmentation fault
```

Please let me know if there is a problem with loading the configuration file. Also, I'm hoping to create my own layout file if you have a layout reference.
