In-Vehicle OS Performance Testing with Autoware #5345

Unanswered   **acalhounRH** asked this question in **Q&A**

acalhounRH on Oct 17

I am interested in using autoware to stimulate a system under test with a close to real world end-2-end autonomous driving workloads. I am curious if autoware would support this concept, and if there are any key performance indicators that autoware provides natively to users?
